Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 13-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over the *IBM Technical Disclosure Bulletin*. It is conventional for clean rooms to either have blower(s) at the inlet, exhaust and/or for recirculation. Hence, it would have been obvious to one having ordinary skill in the art at the time the invention was made for the clean room of the *IBM Technical Disclosure Bulletin* to also be the one where the blower located at the exhaust therefrom, in view of the above Official Notice in order to provide the enclosure interior with a negative air pressure relative to the external air pressure.

Election/Restrictions

3. Claims 1-8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on March 30, 2004.

Response to Arguments

4. Applicant's arguments filed June 10, 2004 have been fully considered but they are not persuasive. As far as the difference in scale argument, a change in size is generally recognized as being within the level of ordinary skill in the art. *In re Rose*, 105 USPQ 237 (CCPA 1955). Moreover, it is noted that this feature is not recited in the

Art Unit: 3749

rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

5. As to the down flow-type clean room argument, the disclosure of the *IBM Bulletin* is analyzing airflow and air distribution in a room. The teaching of the *IBM Bulletin* would flow for use with a positive air pressure room also. It is noted that under section 103, not only are the teachings of the prior art taken into consideration, but also the level of ordinary skill in the pertinent art. *In re Luck*, 177 USPQ 523 (CCPA 1973). See also, *Environmental Designs, Ltd., v. Union Oil Co. of Calif.*, 218 USPQ 865 (CAFC 1983); *Jacobson Bros., Inc. v. U.S.*, 185 USPQ 168 (Ct. C. 1978).

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3749

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
